Announcement From Deanna Hawkins

I would like to announce that my son Warren Hawkins has accepted the role of Vice President of Hawkins Accounting and is very excited to be taking Hawkins Accounting into a second generation of family ownership. Warren has had a long 30+ year career in the accounting profession where he has worked in public accounting and taxation as a CPA as well as held several executive level positions in corporate finance and accounting. His excitement and vision for the future of Hawkins Accounting is a source of pride for me personally knowing that the service level all our clients have come to know and expect at Hawkins Accounting will continue. As for me, I intend to stay active in the business for as long as the Lord allows. My work at Hawkins Accounting is a labor of love and I truly enjoy preparing taxes and interacting with my clients/friends.
